Cloud Basics: Development and Basic Concepts							

Select your favorite topic. In four (4) sentences, discuss why you consider that topic your favorite. Place your answer in Notepad and upload the text file here.

- My favorite topic in the Development and Basic Concepts of Cloud Computing would be at number 4. Origin and Development because it delves into matters like VPN and DNS which are commonly mentioned within my course. Learning that Microsoft provides a VM system called Hyper-V is very interesting. Getting a refresher on things like the TCP/IP and WWW are also always nice.
