Laboratory Exercise

SAP Human Capital Management I

Task 1: Creating positions within the organizational structure as **Recruiting Officer** (10 mins)

Use the SAP Fiori Launchpad to create three positions for the new security organizational unit.

1. To create a position, click the *Human Capital Management* area. On the *Personnel Management* page, go to the *Recruiting Officer* role and select the *Create Positions* app.

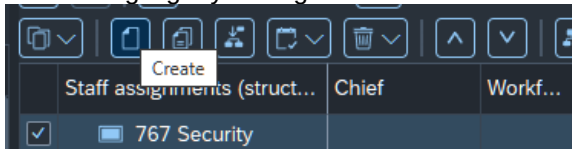

2. Change the previewed periods to be able to create positions that are valid for the past. Therefore, please click  and enter **1st of the last month** as the start date. Also, enter **one year** in the future as Preview period. Click on .

A dark blue dialog box titled 'Specify date and preview period'. It has a 'Start date' field with the value '07/01/2024'. Below it is a 'Preview period to' section with a radio button for 'Time period', a dropdown menu showing '1 Y Years', and a dropdown arrow pointing to 'in the future'.

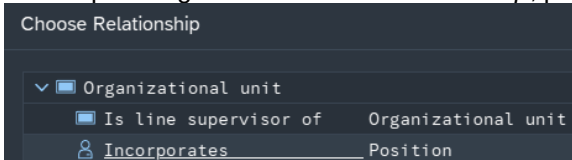

3. The positions should be created in the department **### Security**. Therefore, please go to the window *Find by* on the left side of the screen.
4. There, click on **Organizational Unit** → **Search Term**, enter the search term **### Security** in the *with name* entry field and press . The search result should be displayed in the Hit list window on the left side of the screen.

Hit list	
Existence	Name
	767 Security

5. Please choose your organizational unit by double-clicking so that it appears on the right side of the screen. Highlight your organizational unit and click on  in the context menu.

6. In the upcoming screen *Choose Relationship*, please choose *Incorporates*.

7. A new position was created underneath your **### Security** department. On the bottom of the screen, the details for the new position are displayed. There, please enter the abbreviation **### CSM** for the position and **### Chief Security Manager** as the name. Please activate the check box **Head of own organizational unit**.

Position:

Job:

☒ Head of own organizational unit

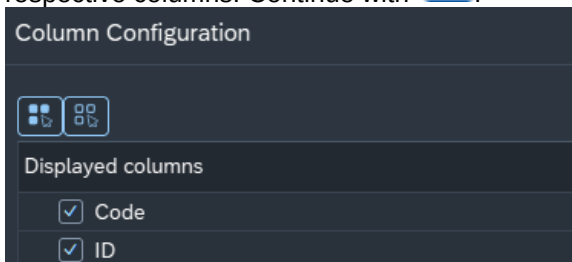

8. Enter **1st of the last month** as Valid from. If this field should be greyed out, please click on  *Display key date*. The functionality should be available then.

Valid from:

9. Press Enter and  to update the entered information, click on to save your data. The organizational structure should now look as follows.

	Staff assignments (structure)	Chief	Workflow
☐	767 Security	767 Chief Security Manager	
☒	767 Chief Security Manager		

10. If you do not see the columns *Code* and *ID*, you can insert them by pressing  and choosing the respective columns. Continue with .

	Staff assignments (structure)	Code	ID	Chief
☐	767 Security	767 Security	O 50000969	767 Chief Security Manager
☒	767 Chief Security Manager	767 CSM	S 50005858	

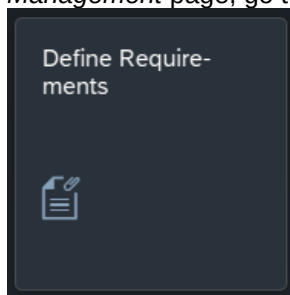

- According to the previous procedure, please create two further positions for a Security Guard and a Security Manager in the Security department.
- For both positions, choose the same date as in the previous step for Valid from. Do not select the *Head of own organizational unit* button.
- As abbreviation, please choose **SG** and as name **Security Guard**. Click  and .
- For the third position, please choose **SM** as abbreviation, and as name, choose **Security Manager**.
- Click  to save the information. Your structure should now look like the following picture. Provide a screenshot of your version.

	Staff assignments (structure)	Code	ID	Chief
☐	767 Security	767 Security	O 50000969	767 Chief Security Manager
☐	767 Chief Security Manager	767 CSM	S 50005858	
☐	767 Security Guard	767 SG	S 50005859	
☒	767 Security Manager	767 SM	S 50005860	

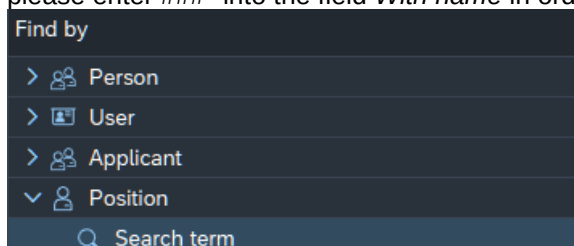

- Click on  to return to the SAP Fiori Launchpad. Confirm any warning messages from your browser with OK.

Task 2: Defining necessary qualifications/requirements for positions as **Recruiting Officer** (5 mins)

- To define the requirements for a position, click the *Human Capital Management* area. On the *Personnel Management* page, go to the *Recruiting Officer* role and select the *Define Requirements* app.

- In the screen *Find by*, expand **Position** and click on **Search term**. In the now appearing search screen, please enter **####*** into the field *With name* in order to find your positions. Confirm with Enter.

3. In the lower part of the screen, the results are displayed within the *Hit List*. Please choose your position (**### Security Manager**) via double click.

Hit list

Icon	Existence	Name
		767 Chief Security Manager
		767 Security Guard
		767 Security Manager

4. A list of requirements is displayed in the right part of the screen. Click on in order to define further requirements for the position .
5. In the popup window, change to the tab *Abbreviation and Name*. Do not change the Object Abbreviation (*), so that all possible qualifications will be displayed and make sure the Language Key is set to **EN**. Press Enter to confirm your search.

Qualification (1)

☒ Search Term
 ☐ Structure Search
 ☒ Abbreviation and Name
 ☐ Search Term with Restrictions
 ☐ Free search

Object abbreviation: *

Name:

Language Key: EN

6. Please choose **First Aid Certification** and **GIAC Security Leadership Certification** by selecting the individual qualifications. Press to confirm your selection.

Position: 767 Security Manager

Start: 07/01/2024 - 12/31/9999

Holder:

Org. unit: 767 Security

Requirements

	Qualification group	Name	St...	Proficiency	Ess	Start	End Date	Note

Conclusion:

In at least three (3) sentences, conclude which of the roles involved plays the most important part in SAP HCM.

Personnel administrators are a vital component of SAP HCM. They manage employee data, configure the system, and ensure compliance with regulations. Their expertise is essential for the smooth operation and effectiveness of HR processes within the organization. Without their expertise, SAP HCM would struggle to function effectively,
